Secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the company.

WORK EXPERIENCE

Yuvasoft Solutions Pvt. Ltd. - Frontend Web developer
Jan 2024 – March 2024

- Worked on Builder Project namely IQLearn . It was an edtech project like Coursera, etc. There were three roles in the project – admin, teacher, and student. It helps the teacher to create lessons, assignment, quiz and stream live classes for the students through slides. Jest and enzyme were also used for testing react application.

HashStudioz Technologies Pvt. Ltd. - Frontend Web developer
May 2022 -October 2023

- Developed Chat GPT Text Formatter, which is capable of formatting the text, removing the background colour, hyperlinks from Chat GPT message. It also prompts to replace the dynamic text in the message.

  Website Link: http://backgroundremover.toolschatgpt.com/

- Recently worked on Train booking System (Nigerian Railway Corporation). It was a project of Nigerian Government in which worked to develop User Interface, incorporated different logics, integrated API's, maintained flow from storing a token during login to finally book a ticket for 'For Yourself' and 'For Another' person.

Gemini Solutions Pvt. Ltd. - Frontend Web developer
August 2021 – April 2022

- Worked on TATA-AIG project in the SPA team. The SPA team focuses on Single Page Applications. My contributions to the Project are Automating website, Fix Bugs, worked on Motor, Health, Travel, and other Line of business, used APIs to fetch and render data and design User Interface.
